

Duchess of Bedford passenger booklet cover

Cover reproduced by GG Archives with its cabin passenger list for Duchess of Bedford, departing Liverpool on 4 September 1931 for Quebec and Montreal, via Belfast and Greenock, under Captain H. Sibbons. It shows Canadian Pacific's illustrated presentation of its Duchess liners. This is a later comparison document, two years after Laurence and Janet's crossing; it is not their September 1929 passenger list. This packet reproduces the available cover and Atlantic track chart. A complete facsimile of the booklet is not included.

Original booklet: Canadian Pacific. Digitized cover: Gjenvick-Gjonvik Archives (GG Archives).

Canadian Pacific Atlantic track chart

The chart appears with GG Archives' 4 September 1931 Duchess of Bedford passenger booklet material. It shows Atlantic routes, an approximate-distance table and space to record a ship's daily position. Its printed routes and visible marks do not document Laurence and Janet's September 1929 movements or weather. This is the complete available chart image. The small lettering remains limited by the detail in the published scan.

Original chart: Canadian Pacific. Digitized image: Gjenvick-Gjonvik Archives (GG Archives).
